Plejaren Federation

Erra is the home-world of Ptaah, Quetzal, Semjase, Sfath and 550,000,000 others. A world of the Plejaren Federation located in the Tayget, Plejara or Plejares star system. Under the leadership of the Andromedan High Council.

Askal is another inhabited planet of the Tayget, Plejares or Plejara star system. Sudor of Askal from this world has previously contacted Billy according to the Contact Statistics.

Luseta is another inhabited planet of the Tayget, Plejares or Plejara star system. Nefratisa is a Lusetan from this world contacted Billy on at least 26th June 2001 according to the Contact Statistics.

Timar is a planet in the Akon star system in the DAL Universe. Asket and Nera are from this world. The Timmar are 'possibly' members of the Plejaren Federation.

Deron resides in the Vega star system and they are members of the Plejaren Federation.

Druan a planet in the Nol star system 3.1 million light-years distance from the SOL system.[54] Where the Druan are said to live. They are also members of the Plejaren Federation. A large 350 metre diameter Druan ship was observed for 45 minutes at the SSSC on the 8th of April, 1983 at 8:15 PM. Forming part of their their 5 to 6 month expedition of Earth in which their ships were seen on every continent of the world.

Florena's Note – 1/08/2004: The Plejarens and the Druans established intensive contact with each other. In the course of two years, negotiations took place over an admission of the Druans into the Plejaren Federation, which found its fulfillment with the integration of the Druans in February, 1985. At the same time, they agreed on the integration of the Druans into the spirit teachings, as this is taught by the Plejarens, because the spirit teachings of the Druans are in conformity with the teachings of the Plejaren, as they are also taught by Billy on Earth. On the 11th of May, 1985, Quetzal, accompanied by a Druan named Zeltan, appeared to Billy and explained to him that the spirit teachings, which Billy prepares for the Plejaren spirit leadership, would also be passed on to the Druans in the future for learning purposes. The Contact with Zeltan remained unique, however. Since that time, the Druans have been working with Billy's teachings.

Njsan a planet in the Lyra star system where the Njsan reside and are members of the Plejaren Federation.

Sater also in the Lyra star system and members of the Plejaren Federation.

Getreuer spirit-forms

The age of the ET spirit-forms in the reincarnation cycle on Earth, originating from the depths of outer space is 8 to 12 million years old. CF has revealed in the Q & A the average age of strictly Earth-originating spirit-forms is 3 million years.

The age of the 144,228 ET Getreuer spirit-forms in the reincarnation cycle on Earth is 69 million years old. They have to be "throttled-back" by the Arahata Athersata pure-spirit-level with help from the Petale pure-spirit-level, or otherwise the Getreuer would have already become the high council level.

The Nokodemion spirit-form spend 1.092 billion years in the Arahata Athersata pure-spirit-level, after which the spirit-form made the decision for a new start to the mission.

12 million years ago the Nokodemion spirit-form became known as Henok in the normal evolution cycle as a universal prophet, and this was the beginning of the great mission, formed the Getreuer.

At the start of their mission fulfillment, by decree of Nokodemion, they were kept inactive in the "beyond" for 4 million years (without having a material lifetime) so the Arahata Athersata level could prepare them for their millions of years long mission to assist the Nokodemion spirit-form.

When the mission is successful, which means it has spread universe-wide, and it will not suffer any set-backs, the Nokodemion spirit-form will return to the Arahata Athersata pure-spirit level, and the Getreuer spirit-forms will become the high council. The Earth will have to be "cleaned up" first, and fully transition to the natural law and order of the laws and recommendations of Creation taught by the prophets of old, before they all leave the planet in the year 3999, and then it must be on to the rest of the universe.

The Plejaren will see this Nokodemion mission will be successful, and complete.

Teaching of the Prophets

Henoch (Enoch)

Elia (Elijah)

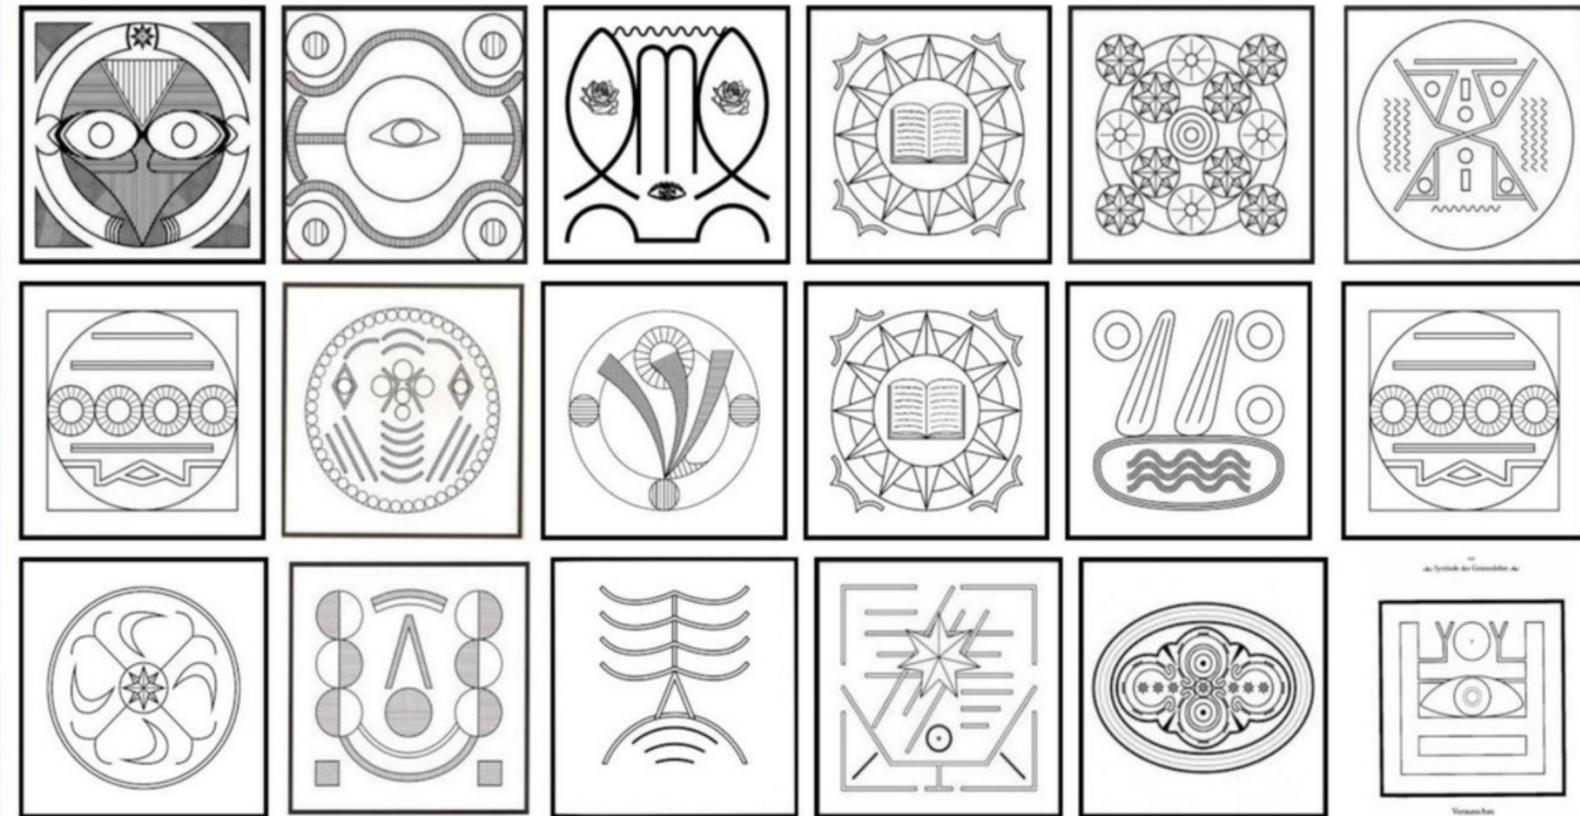

Jesaja (Isaiah)

Jeremia (Jeremiah)

Jmmanuel (Immanuel)

Muhammad (Mohammed)
and Billy (BEAM)

Teaching of the truth, teaching of the spirit, teaching of the life

Teaching of the true prophet Henoch from the series of seven of Nokodemion

And therefore this truth is also given in the book the entitled «Goblet of the Truth», a first part of which, namely the teaching of Henoch, was also called the «Cauldron of the Life» by the druid prince Myrddin alias Merlin, and has nothing to do with the apparent «grail» of Christianity which is only based on lies and deception, never existed and therefore was not used by Joseph of Arimathea to collect the blood of Jmmanuel (Jesus) at his crucifixion. The true grail only existed as a holy place, and the composition was included in the «Cauldron of the Life», a writing of the teaching of the true prophet Henoch from the series of seven of Nokodemion. The document was delivered to the druid Myrddin (The Laughing One), later known more generally as «Merlin», as a transcription of the Plejara Keridwena (The Triple Goddess). Myrddin poured the transcription into the goblet, which was known as the «Cauldron of the Life», and misused as the basis for fabricating the «grail» through Christian falsifications, which by no means can be brought into connection with this «Cauldron of the Life» because the «grail» was a place with a spring, surrounded by trees and plants, where the druids used to conduct their meditations. This Christian grail falsification has been delivered down to the current time since its origination, however once again in a further vast falsification which maintains that it was the goblet, i.e. «grail» of Jmmanuel (Jesus) which Jmmanuel and his disciples drank from during the Last Supper and in which the blood of Jmmanuel was collected by Joseph of Arimathea at the crucifixion.

Over two millennia, the whole thing has plunged millions upon millions of believers into a boundless loss of orientation in terms of knowledge and truth, resulting not only in many wars, Ausartungen and evil of all kinds, but also destroying millions of human lives, in many cases due to the delusion, the lies and the falsifications of Christianity and all other religions and sects. All this taken together also resulted in a huge and deeply rooted life-angst that has been increased by the terrible obsessions related to the fear of death that have been brought about by Christianity and the other religions. The most insane of all religions is Christianity which goes so far as to claim that what it describes as the son of God, Jesus, will at some time be bodily reborn. In early Christianity, it was even claimed that this would take place very soon after Jesus' death, which would apparently also have an impact on the dead who had believed in him. For this reason, in Antiquity, thousands upon thousands of rotting corpses were actually hoarded in the living areas of houses, which as could be expected, led to catastrophic plagues, as is known from ancient Rome in particular. Later, Christian theologians proclaimed the second coming of Christ and the resurrection of the dead on Doomsday at the «end of time», and thereby shifted the fulfilment of the entire deception and absurdity to some imaginary day which will never come. However, this in turn had the effect that instead of hoarding corpses, other insane and abnormal aberrations came about such as the imbecilic and widespread cult of relics which swamps the whole of Christianity down to this day – as it does other religions and sects. This involves not only overwhelming the believers with apparently genuine, but in fact false, utensils of human beings who have been elevated to the status of founders of the religion, but also with purported body parts of obscure saints and martyrs. This terrible state of affairs is also exacerbated by channelers, who, claiming to be chosen ones, talk to Christ, God, Mary the mother of Jesus, Joseph the father of Jesus, Pater Pio or any other dead saints and the like, claiming to be in contact with them and receiving messages.

Arahat Athersata

.A pure-spiritform has a conscious Spirit-consciousness with its own identity, and doesn't need a material body or consciousness anymore, its also free from the cycle of incarnation.

This spiritform will be able to do as it pleases, but always and in accordance with the Laws of Creation, it will be absolutely impossible for this Spiritform to do anything illogical or against Creation.

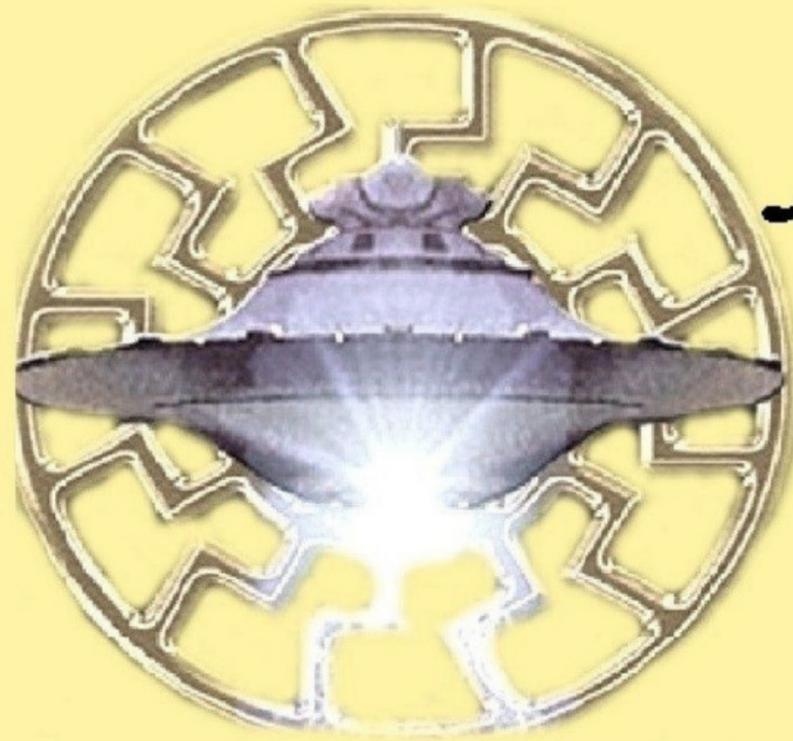

Normally it will be a part of a pure-spiritform-collective, but even then it's completely free to do as it pleases.

So, Arahat Athersata has foreseen what happend, is happening and will happen on this planet, because they can see in every time as they please.

Although Plejaren Spiritforms are very far advanced they still have an unconscious - spiritconscious and are therefore bound to their own planet, they cant incarnate on this planet, and be a prophet.

The only logical solution is that one pure-spiritform will take on a task to be a prophet, for several reasons:

- 1. It has a conscious spirit conscioussness and can decide on its own in a perfect logical manner.*
- 2. It's the only Spiritform who has the adequate knowledge, wisdom, power, love and strength to deal with the low and hard vibrations of the Earth human Spiritforms; we all know what happened to Semjase when our vibes hit her.*
- 3. Pure spiritforms of Arahat Athersata are knowledgeable and wise enough to assist us as prophets, so a pure spiritform of Petale doesn't have to do it. Although a pure spiritform of Petale is wiser then a pure spiritform of Arahat Athersata there is nothing that what the Earth human can understand that can't be explained by Arahat Athersata. Petale has its role that it explained the 12 commandments because it has the greatest wisdom of all, except Creation.*
- 4. An pure Spiritform is not bound by incarnation-cycles-so they can incarnate where and when they please and when it's needed.*

Malona and Mars

Spirituelle Lehre

Ban-Srut Beam

Lineage of Nokodemion

Everything transpired as the scientists had formerly predicted: The "Destroyer" penetrated the Martian orbit and wrenched Mars with it into another SOL orbit, namely that of Malona, where it remained. Subsequently, Malona drifted away, however, because of the Destroyer's powerful forces, but managed to exist in this orbit until the time when it was destroyed by its inhabitants many millennia later, and became the Asteroid Belt. During this "drifting catastrophe", the inhabitants of Malona were decimated from approximately 470 million humans to barely 14 million; however, they were able to recover somewhat and by the time they destroyed their planet, their population had increased again to approximately 52 million.

The refugees on Earth lost contact with the people on Malona and Mars, which became completely desolate and its remaining inhabitants perished. Individuals from the benefactor group who previously had demanded that they be exalted and worshipped, fiercely spread their false teachings and never again allowed the well-disposed benefactors to gain any power. In this manner, the "creator-overlords" were then capable of putting on the airs of terrestrial Man's creators, rising to power and spreading their insane religious doctrines which, however, contained an absolutely novel yet equally false history of humankind's origin, history and belief. Its purpose was to definitively destroy and lose all data of mankind's true descent in the event that someone else would attempt to secretly glean the information from somewhere. Of course, the true benefactors did not allow this occur. They fought back by inventing their own religious creeds and disseminating them among the now numerous terrestrial human beings. They were hoping that through their new belief system, humans would learn to search for the genuine truth, to grasp and comprehend everything that is truly Creational and natural --- and they envisioned their situation turning to the better. To this end, the true benefactors coined the phrase: "The teachings shall be produced for the human beings on Earth, so that they may destroy the impurity and degeneration within their abused bodies."

144,000 Plejaren souls incarnated on Earth to further the development of this planet

Eduard Albert Meier, called Billy, act as middleman between the Plejaren and the bearers of the codex as well as the majority of the human beings of Earth. In ancient times, I, as human being with a higher developed spirit-form, offered myself voluntarily for this mission and task and received an appropriate education. It is necessary to mention, that out of the fact of the former 144,207 ringleaders and their history the wrong christian-religious and sectarian legend of the supposed 144,000 chosen ones resulted, i.e. was invented. This was accomplished by irresponsible sectarians in order to bind there-through believers and other misguided followers to wrong religions and other cults and sects, in order to be able to exploit them, in every possible form, to the last drop of blood.[30]

Summary of the Plejaren message to the Earth human being

Leading back the earthly humankind from the guidance into the unreal and wrong mode of life, wrong philosophies and the turning-away from the creational laws and recommendations and the ausartungen[31] in all fields of badness, shortcomings, irrational religions and deviancies of all kind etc. – brought about through the old Lyranians/Lyraner and Vegans/Weganer, and which were created willingly, joyfully, irresponsibly and consciencelessly through the human being of Earth – towards the right mode of life which is in accordance with the creational laws, recommendations and guidelines

Therefore, the 144,207 human beings, besides countless followers, are integrated into this codex up to the current time and far beyond into the future, in order to fulfil the mission of the compensation. In the new time, the bearers of the codex are gathering anew, lead and guided through the impulses of the codex becoming efficacious in them, through the teaching of the creational laws and recommendations, and through the help of the Plejaren, who feel themselves jointly responsible for the fulfilment of this mission.

Asket, February 1953

"We are only here in order to fulfil our mission and the prevention of the catastrophe and to prepare you for your difficult assignment as prophet. For further things, like help with evolution, and so forth, other forms of life from your own universe are responsible, who will initially call themselves Plejarens

These sons were the ones who were under an obligation to the mission, to instruct all who come from the Nokodemion and Henok lineage in hereditary series in the teachings of the spirit, and to preserve the entire knowledge regarding this, which had been constantly worked out to the present time and was recorded, and now encompassed more than 77,000,000 OM canons.

Now, in order to be able to fulfill this mission on other worlds - on which old spirit forms from the Henok lineage, respectively, Nokodemion lineage (thereby) reincarnated, because earlier humans from the named lineage passed away there, as also on the Earth - special humans were, since ancient times, sought out again and again from the concerned worlds, who were taught just as much by our ancestors and earliest-originating ancestors as we likewise continue to do.

Quetzal
Semjase und ich sowie schon Ptaah und dessen Vater Sfath wie auch mein Vater gehören väterlicher seits je einer abstammungsmässigen Linie an, die auf Henok und Nokodemion sowie auf deren Söhne zurückführt.
Diese Söhne waren es, die sich der Mission verpflichteten, alle aus Nokodemion und Henok hervorgegangenen Linien in erbmassiger Folge in der Lehre des Geistes zu unterrichten und das gesamte diesbezügliche Wissen zu bewahren, das bis zur heutigen Zeit fortlaufend erarbeitet und aufgezeichnet wurde und heute mehr als 77 Millionen OM-Kanons umfasst.
Um nun auf anderen Welten, auf denen alte Geistformen aus der Henok-Linie resp. The Androids constitute an important part of the mother ship

Die Spirituelle Lehre

"Billy" Beam - Last Prophet
The line of Nokodemion

It is in the middle section of this command centre that the navigation of the ship take place. This section is shaped like a horseshoe with a height to ceiling of about 100 meters. The room is packed all kinds of instruments and apparatus, image and data displays of all types. In the centre of this horseshoe in a square with floor space the size of a normal room. And it is here those in command of the ship are placed. Those responsible for the navigation. And androids are to a large degree used for control functions of the ship. Androids are computer people who are entrusted with the various control tasks. Androids are working robots that look like humans. Inbuilt in their head, they have a type of chemical-half organic computer brain.

The type of android used in this area feel no pain because they have neither the nerve system, or psyche. But beside these deficiencies, they are human imitations. This is in contrast to the more highly developed pure bio-organic independent minded Androids, which has the possibility to develop artificial emotions. Their joints and bones are of mechanical construction. Touch impulses from fingers and other body parts generated when objects are touched are led and transferred via a form of proto plasma to their computer brain located in the head.

All mechanical parts and computer technology inside this type of android is not visible because it is covered on the outside with artificial skin. The skin is so natural that it looks like normal human skin. And embedded in this artificial skin are information sensors. These also sense injuries which if occurs is something the android itself will detect and repair. When an android has fulfilled a certain task and no longer is needed it will go to a corner and wait for further instructions. When again time has come to activate the android it is enough to snap the fingers to summon its attention. Because they are programmed to react on signs, sound and voice.

The Androids are normally programmed to take care of a quite specific projects or tasks. It can also be programmed to service only one single person. It will then obey orders given by this person only and from no others. An android is an absolute self-thinking robot, which we would have trouble identifying as such. Because in a conversation with them, they would hardly stand out as artificial. The differences between them and humans are thus miniscule.

The Androids constitute an important part of the mother ship. They maintain and carry out important functions and tasks, many of them critical. They are also used for expedition purposes and are sent to worlds and planets where it would be too dangerous to use research team of people. The androids do not need to be fed nutritious food. They do not possess body organs resembling any body organs found in humans except with one exception : protoplasm. Protoplasm which is a living matter keeps their skin alive and natural looking. The power which the android needs to function is being delivered by button large energy transformer that captures the electron energy from the universal space and converts it to usable energy.

The android has thus been equipped to draw its power from an inexhaustible energy source. Because they are absolutely self-minded, self-monitoring and self-executing technical beings, they have inbuilt an emergency fuse in the event of malfunction. This is an inbuilt security device to eliminate the possibility that they can turn against humans. According to Ptaah's information accidents did happen during the development phase of these androids a long time back in their own time. People then lost their lives as result of errors which occurred. But such anomalies have now been eliminated.

Although the dimensions of such a mother ship are gigantic, it is not the largest ship these extraterrestrials dispose of. The so-called emigration ships shows a diameter of 120 kilometres. That is seven times larger than the mother ship. These giant ships visited our solar system in ancient times and they can accommodate up to a million people. These type of ships are built for evacuation purpose. They have used them on occasions where it was imminent danger of war or major natural disasters.

ATLANTIS

According to the Plejaren, not only was there a continent of Atlantis, but also a continent of Mu with whom the Atlanteans co-existed until inevitable human conflicts interfered. They claim that the sudden destruction of Atlantis came about in a brief but violent war that also destroyed Mu. Meier was told that scientists from Mu actually mounted a propulsion system on a chunk of asteroid and, on a suicide mission, piloted it down towards Atlantis. Apparently a sudden devastating attack from Atlantis had killed all the inhabitants who couldn't flee in time and virtually melted the surface of the land of Mu. However, as the asteroid entered the Earth's atmosphere above Atlantis at very high speed, it began to break into many pieces which attained tremendous temperatures due to the friction of entry.

Contact report 003

The first mention of Atlantis occurs in [contact 3](#) dated 8 Feb, 1975, on line 34, where [Sermass](#) mentions that [Uly](#) is due to "receive explanations about Atlantis and [Mu](#)".

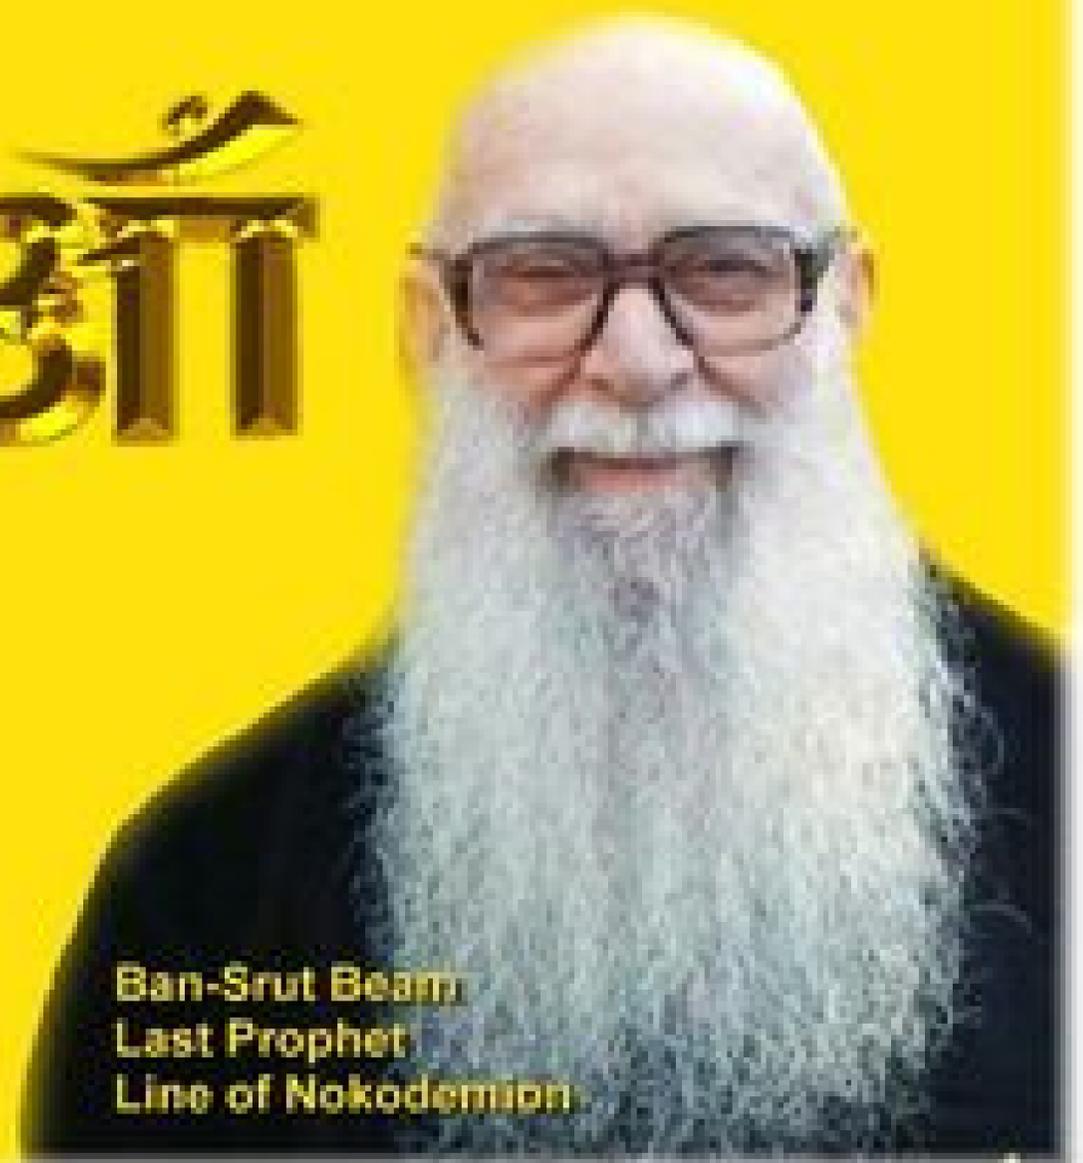

Contact report 009

Followed by [contact 9](#) dated 21 March, 1975. Again with [Sermass](#), who explains that "the descendants of those who had settled on faraway worlds returned ([contact 10](#) explains from Beta Centauri). They were again under the leadership of an HWH (Described in [contact 10](#) as [Jachwach Akant](#), married to [Jachwach Karyade](#). It's explained in [contact 20](#) as well as later in this [contact 9](#) that another [Jachwach](#) called [Aga](#) "The Barbarian" attempted to seize Atlantis and succeeded in taking [Hypostora](#) the area which today is Florida), under whose command they built on Atlantis and Mu. They built huge cities on each of the two separate continents (Described in [contact 20](#) as North/South America and Europe/Africa). For thousands of years they lived in friendship and peace, until a few scientists were again overcome by the old thirst for might and power, and tried to seize the government. But having tired of wars, the nations rose up against them, and they occupied spaceships and fled into cosmic space; that being some 15,000 years ago in Earth chronology."

Contact report 055

In [contact 55](#) dated 14 June 1976, [Sermass](#) provides [Uly](#) with the explanation that [Greater Atlantis](#) was situated between the separated continents of North/South America and Europe/Africa placing it roughly within the current equatorial climate zone. With the smaller-Atlantis being in the Santorini region, which partly constitutes the Greek archipelago in the Mediterranean Sea, Aegean Sea and Sea of Crete. It is again briefly explained that [Greater Atlantis](#) was damaged and subsequently sank into the ocean as a result of war activities with the inhabitants of [Mu](#). Which was at that time a country in the place of the now Chinese Gobi desert. But the country of [Mu](#) was also destroyed during these war activities and also ceased to exist. However the subterranean town of [Aparia](#) remained due to its subterranean construction. The destruction of smaller-Atlantis occurred around 8,000 years after these war activities, referring to [contact 55](#). Which infers its survival of the tsunami destruction of [Greater Atlantis](#).

I am interested in the relationship of our human energy and the nature of the double spiral of creation.

first of all my questions are just thoughts of mine which may not be accurate. But I cannot help but look at the double spiral and think of how much reminds me of the shape of the brain or a seed of a plant.

my question is.

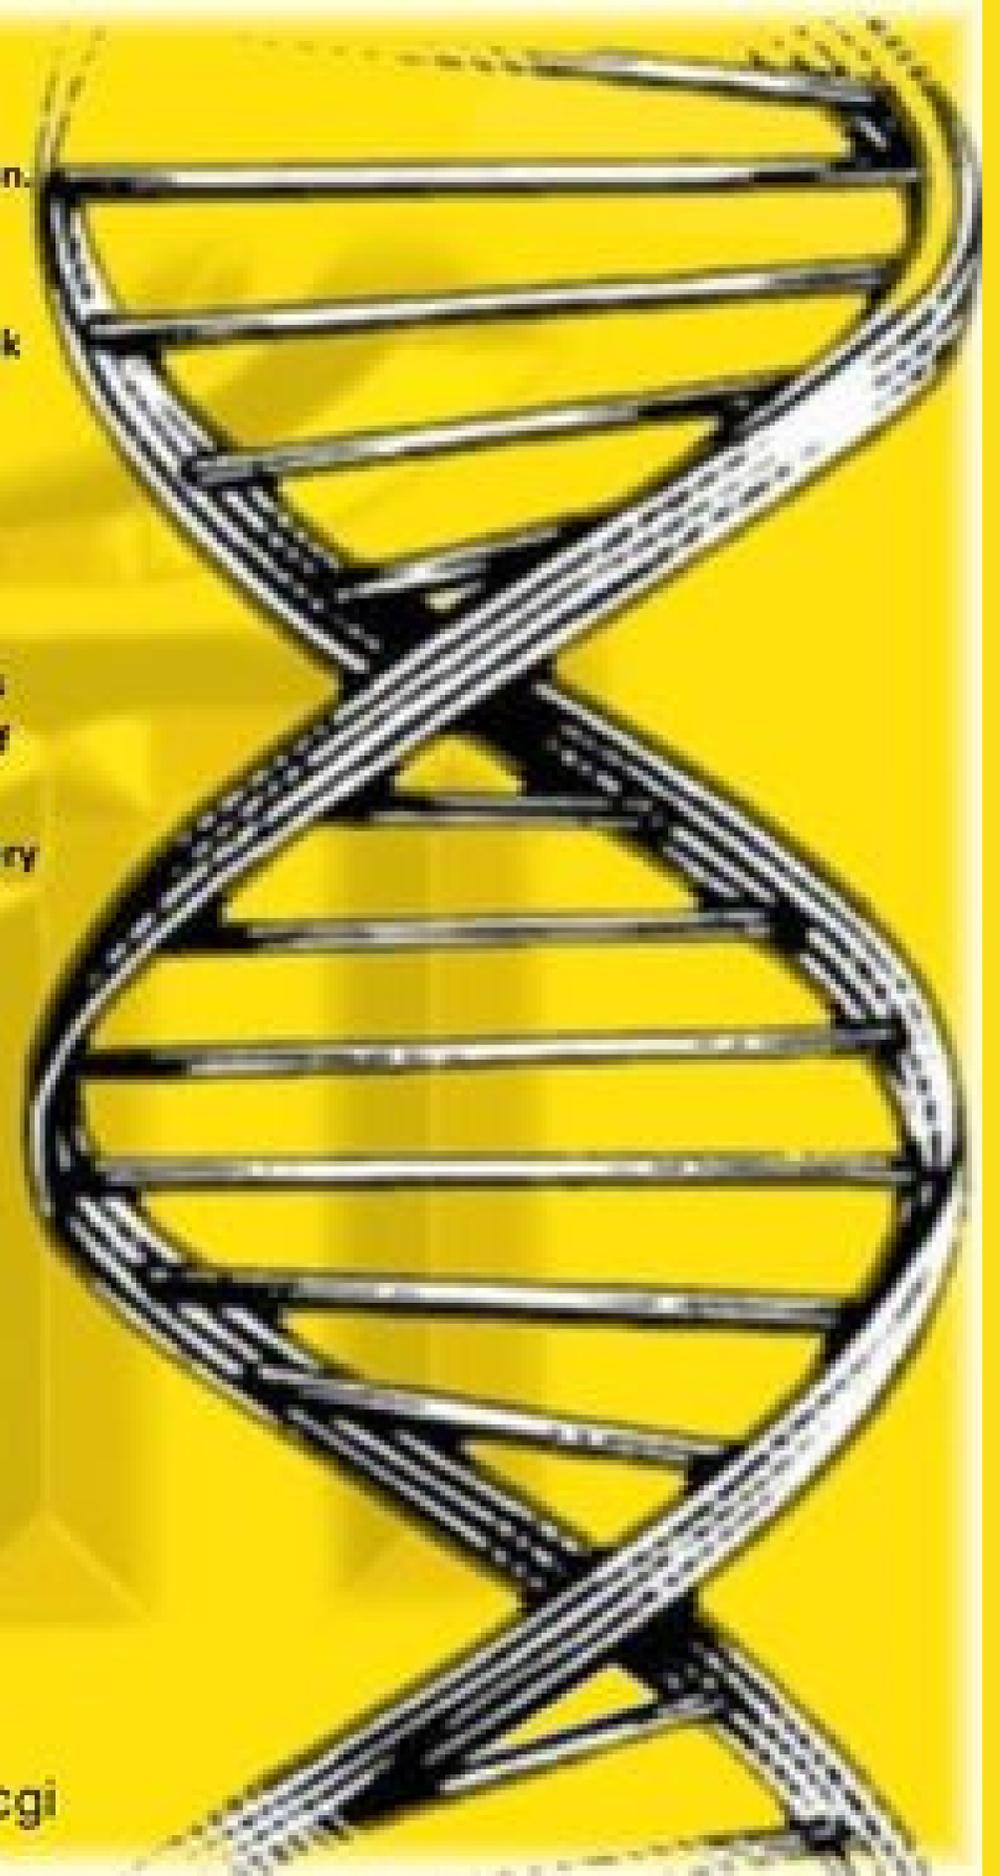

When a human enters a state of consciousness, does the human brain initiate the same directional flow of energy (or creation) as the double spiral of creation does . And if this manifests for this person for the very first time what change happens to the spirit. And thank so much for your time.

The basic principle must be the same in everything. Therefore it could be as you suggest. The genetic structure of the genes (the double helix) resembles that of our universe.

Influences in Earth History

Assisted with the education of several prophets of truth throughout Earth history.

Protection of Earth from interstellar aggression.

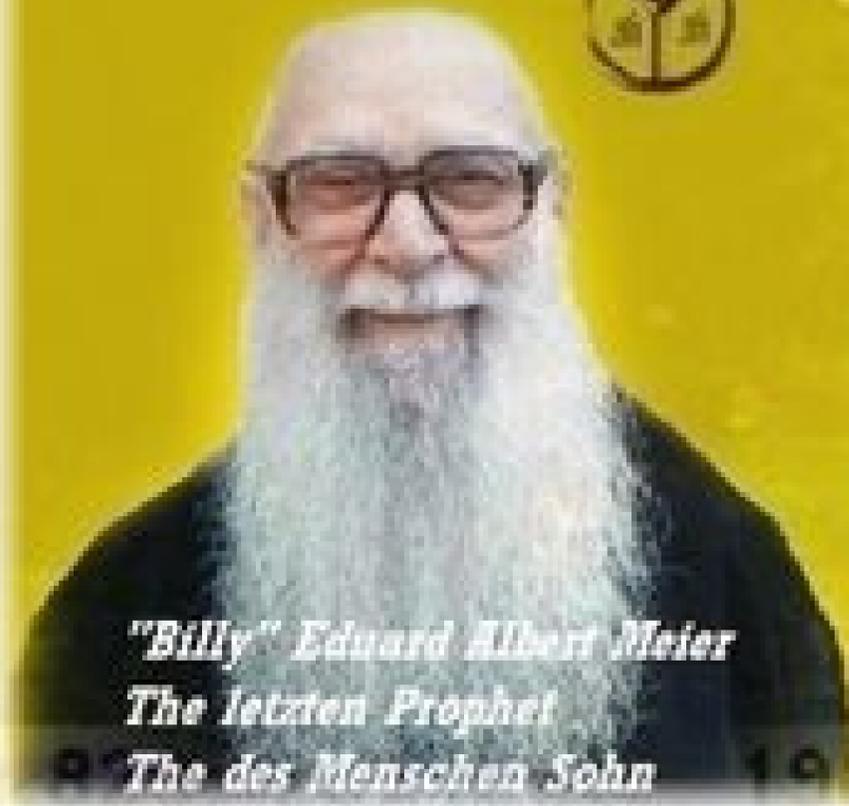

Deported from Earth and imprisoned the Giza Intelligences (also known as The Bafath) in 1978.

Decreased the orbital period of the "Destroyer" from 575.5 to 1180 years in the 20th century.

Then later on redirected it so that it will never again threaten the Earth.

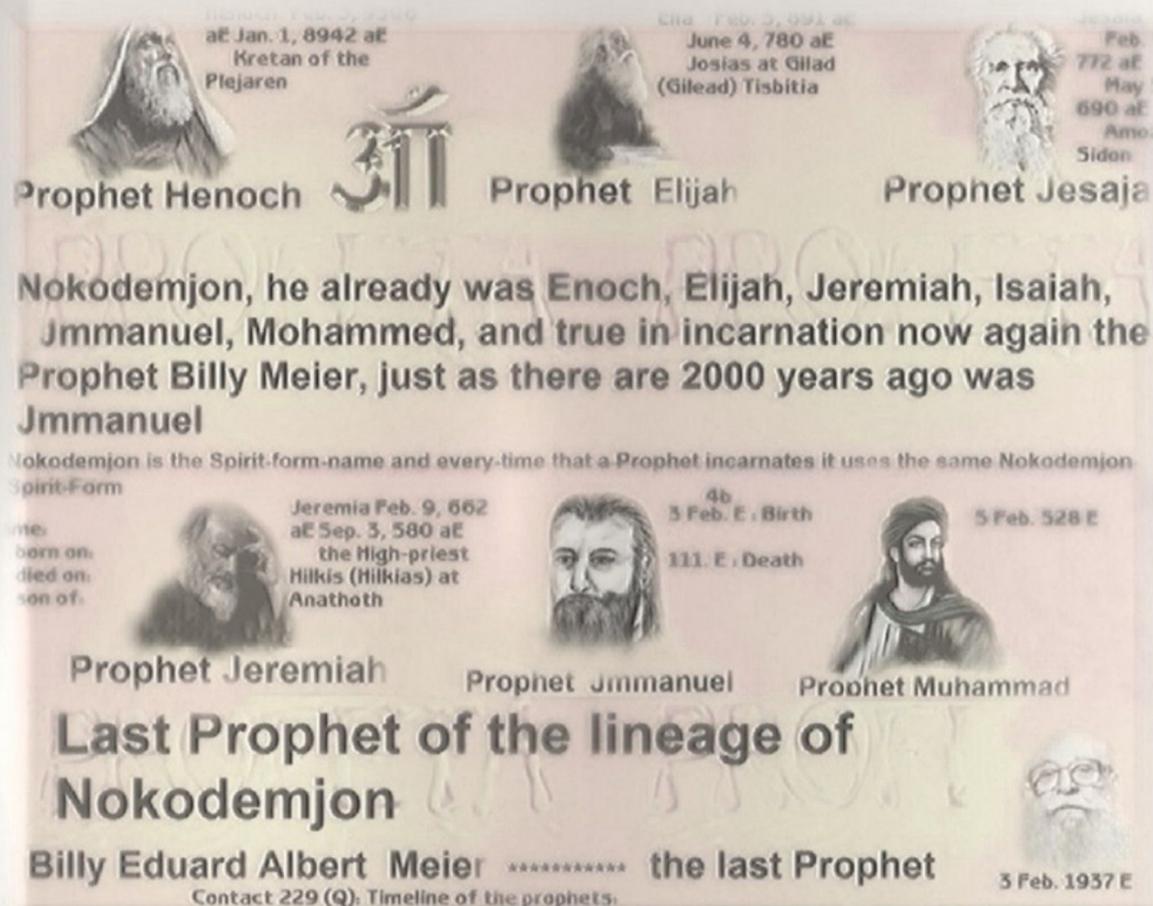

Prevented testing of a new weapon of mass destruction that would have destroyed the Earth within a few seconds in the 20th century.

Established and conducting the Peace Meditation since 1983 which has helped end some political confusion, end dictatorships and avert WW3.

About Billy Meier and Nokodemion

Each universe brings forth a universal prophet who is repeatedly materializing again as a human being in order to help the various humankinds speeding up evolution. That's a normal occurrence. There were two Henoks, Henochs and Nokodemions sharing the same spirit-form.

And Lasan was one of the worlds in a very long series where the personalities of the Nokodemion spirit-form was active and living.

The Nokodemion spirit-form started on Earth as Henok.

During the first (only the first one) waking period of any universe there is a (one) universal prophet, i.e. the first human being who enters the spiritual plane of Arahathatersata.

Are you saying that Henok came to Earth on his own spaceship?

Whether it was his own or someone else's spaceship is unknown to Billy, but of course it was a spaceship. And the „Lyra system“ he came from exists in another time-space configuration.

Which race of Extraterrestrial's brought Henok to Earth 390,000 years ago to enter its reincarnation cycle, and did Henok know at that time that his spirit form will be here for hundreds of thousands of years?

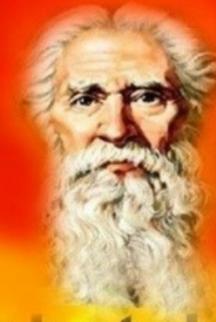

Henok came (flew in) from Lyra, and of course did he know at that time about the duration of his mission here in the SOL system.

Question The purpose for these incarnations on the Earth is therefore not only to teach the Earth humans, rather, in the first instance, that the knowledge itself to do with the mission and the duty connected therewith, would finally be deeply anchored in oneself in such a way so that, in the distant future, no more deviation from it would be possible?

Billy Quetzal would now say: That is of correctness.

Question I assume that not only Ptaah, Semjase and Quetzal are in the Srutin stage of evolution, rather also the bearer of the spirit form of Nokodemion and Henok.

And I further assume that he already reached this stage a very long time before they did.

Is it so that in the measure of consciousness he is already around one or more stages further than Ptaah, Semjase and Quetzal?

Billy The Srut evolution level already begins before the attainment of the position of Jschwjsch.

The position of Srutin is a part of the Srutin-evolution level.

Now if Nokodemion's spirit form has a very high stage of evolution then that doesn't mean that the human in which this spirit form is reincarnated would therefore be something other than a simple human.

His consciousness and the personality which thereby arises from it are inevitably adjusted into the present human evolutionary circumstances, which means that it therefore – seen quite pragmatically - is really primitive, also when the knowledge of the spiritual matters is so high that it enables the pressing toward and into the storage banks up to the high levels.

It is a process which is possible only through the accepted help of the spiritual energy, its power and its knowledge and wisdom.

The consciousness and the personality that thereby arises from it cannot be one for one swapped with the spirit form.

A spirit form always contains a much higher evolutionary stage than the consciousness and its personality.

The consciousness is always fitted to the circumstances of the life form, its living conditions and its environment.

The emergence of damage to that which pertains to the consciousness through too much knowledge, etc., is thereby hindered.

And now when the Nokodemion spirit form in spite of its high development lives in a human whose consciousness is even higher developed than that of the fellow humans generally, in respect of the knowledge of the spirit, then this is also only possible through certain altered measures that were made possible through the Petale level.

Question The spirit form of Nokodemion must be monstrously strong - very much more powerful than every other spirit form in the material universe.

Is it because today's bearer - respectively a human, who carries this spirit form in himself - has enabled, not only the obtaining of Ptaah's knowledge, but the far surpassing of it, that he was named the uppermost designated advisor and teacher of the Plejaren spirit leadership?

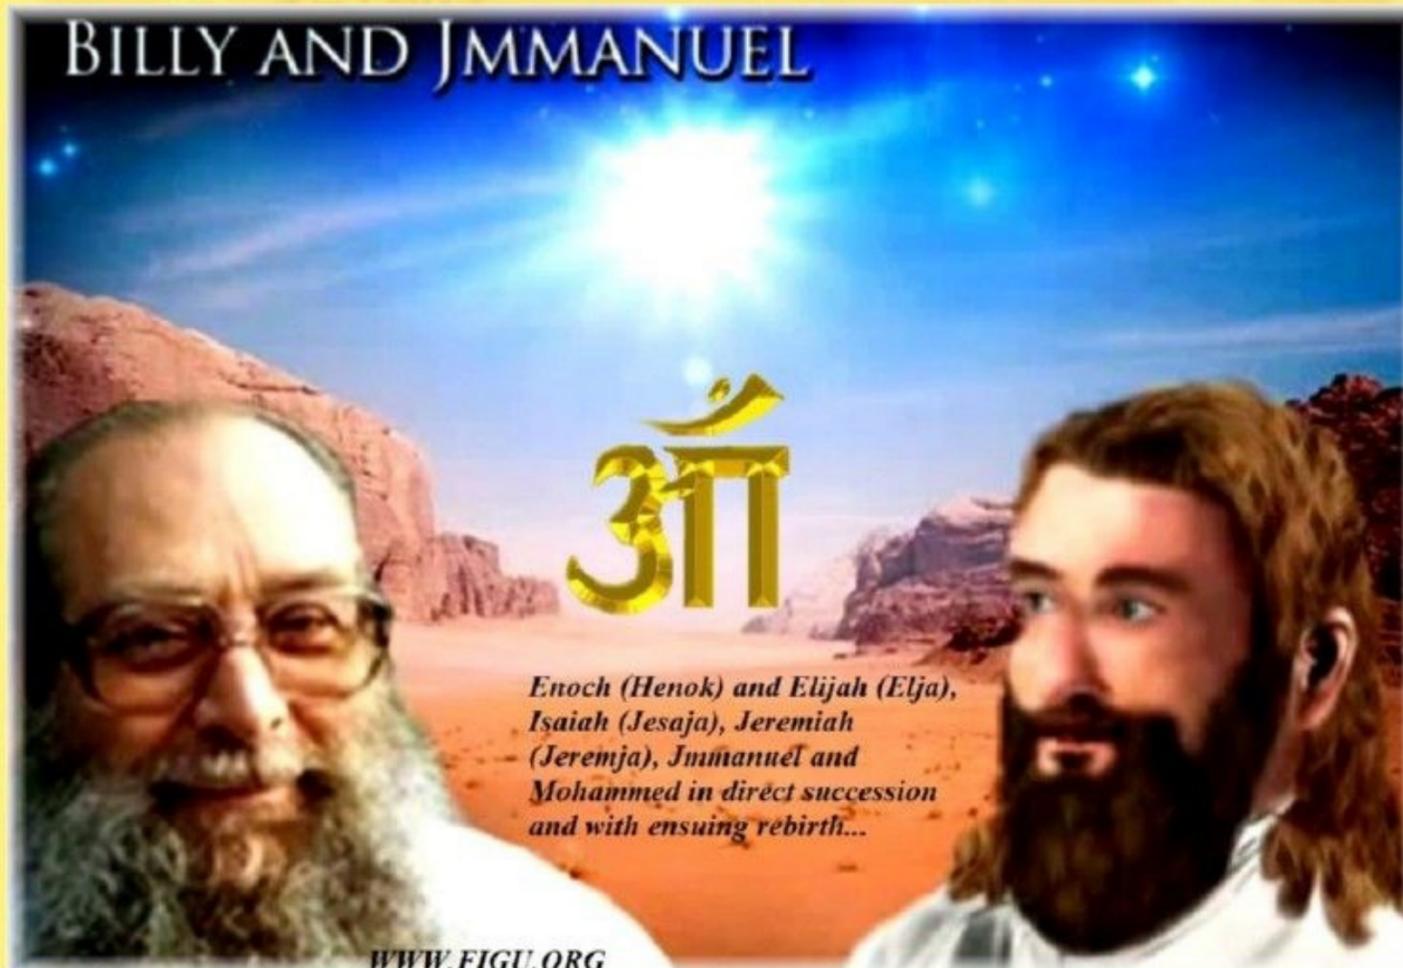

Anyway, indeed, in respect to everything of spiritual importance, he has a more comprehensive knowledge than Ptaah.

And he has acquired this knowledge in a period of time that corresponds to a tiny fragment of Ptaah's age.

Billy But that is only based on the fact that the bearer of the Nokodemion spirit form had and has the possibility to make use of all of Nokodemion's storage banks and Henok's storage banks, because he, as the only one, has the frequency-based means to penetrate into these storage banks.

Nokodemion Lineage

134) Through this process alone it is guaranteed that every newborn human being is unburdened by his or her thoughts, feelings, actions, deeds, and his or her activities out of his or her previous life and those before that, just as the creational laws determine that every new life form to be born, and thus also the human being, shall be of pure and unburdened consciousness; therefore it is given – contrary to many irrational teachings of false prophets, religions, sects, ideologies and philosophies – that all happenings may only be related to the earthly existence, therefore the fairness of the creational laws determines that all returning effects, i.e. interactions as well as other causes and effects and hence also the destiny falls completely onto the time span of the life on Earth; and accordingly, both atonement processes in the fine-fluidal realm of the other world and in a religiously explained heaven or in a hell are as senseless as the wrong karma-teaching which states that the consequences of the preceding life would have to be borne in the coming life.

135) So turn away from the irrational teachings and erroneous assumptions of your religions, ideologies and philosophies and try to find the true logic in the truth which you can experience and fathom through the teaching of the truth, the teaching of the spirit, the teaching of the life to which you shall turn in free will and without coercion, so that you may find your true life.

Teaching of the Prophets Chapter 28* *Lehre der Propheten* Abschnitt 28

134) Durch diesen Prozess allein wird gewährleistet, dass jeder neugeborene Mensch unbelastet ist von seinen Gedanken, Gefühlen, Taten, Handlungen und von seinem Wirken aus dem und den vorgegangenen Leben, eben so, wie es die schöpferischen Gesetze bestimmen, dass jede neu geborene Lebensform, so also auch der Mensch, reinen und unbelasteten Bewusstseins sei; daher ist es gegeben – entgegen vielen Irrlehren falscher Propheten, Religionen, Sekten, Ideologien und Philosophien –, dass alle Geschehen nur auf das irdische Dasein berechnet werden dürfen, folglich die Gerechtigkeit der schöpferischen Gesetze bestimmt, dass alle Rückwirkungen resp. Wechselwirkungen sowie sonstigen Ursachen und Wirkungen und damit auch das Schicksal geschlossen auf die Spanne des Erdenlebens fällt; und demgemäß sind sowohl Sühneprozesse im feinstofflichen Jenseitsbereich sowie in einem religiös ausgelegten Himmel oder in einer Hölle ebenso unsinnig wie auch die falsche Karmalehre, dass im nächsten Leben die Folgen des vorgegangenen Lebens getragen werden müssten.

135) Wendet euch also ab von den Irrlehren und Irrtümern eurer Religionen, Ideologien und Philosophien und sucht die wahre Logik in der Wahrheit zu finden, die ihr erfahren und ergründen könnt durch die Lehre der Wahrheit, die Lehre des Geistes, die Lehre des Lebens, der ihr euch in freiem Willen und ohne Zwang zuwenden sollt, auf dass ihr euer wahres Leben findet.

What is FIGU Switzerland and what do they disseminate?

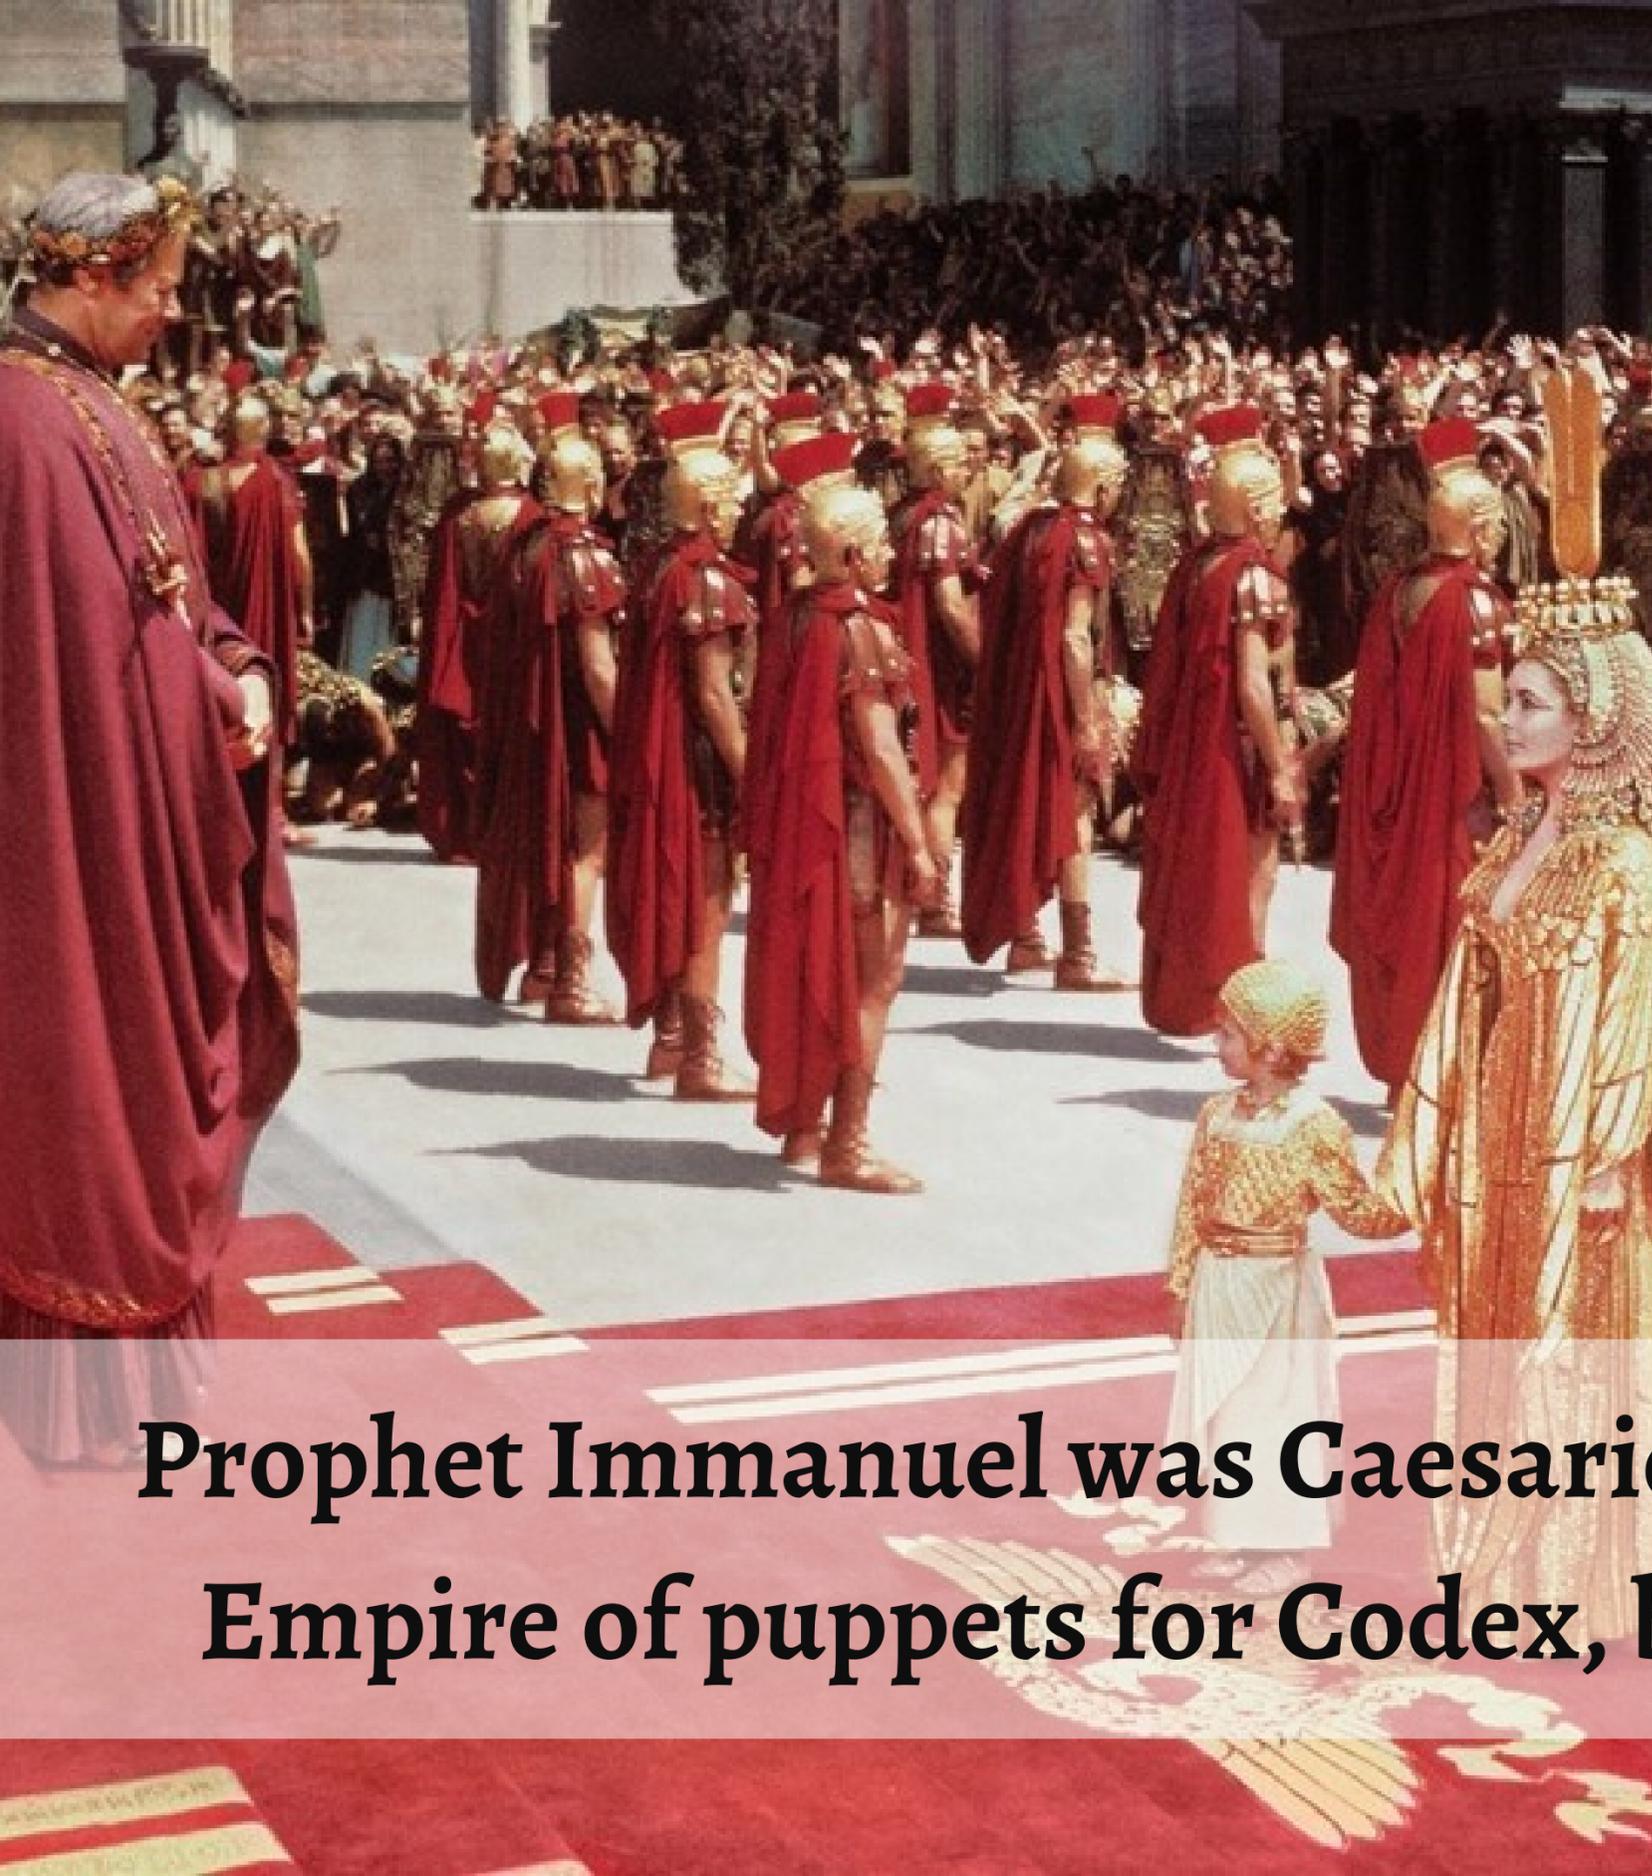

FIGU was founded in 1975 by a man called 'Billy' Eduard Albert Meier. FIGU is a German acronym for 'Freie Interessengemeinschaft für Grenz- und Geisteswissenschaften und Ufologiestudien' which translated into English means 'Free community of interests for border and spiritual sciences and ufological studies':

FIGU Switzerland disseminates books and writings, primarily by Billy, that cover a wide range of subjects that come under the title of border and spiritual science - in the FIGU itself this is normally referred to as 'Geisteslehre' or 'spiritual teaching' in English. The main objective of FIGU is to disseminate the spiritual teaching. The spiritual teaching that FIGU disseminates is directed on all creational and natural principles in every wise, as well as the creational laws that are to be regarded as counsels for following.

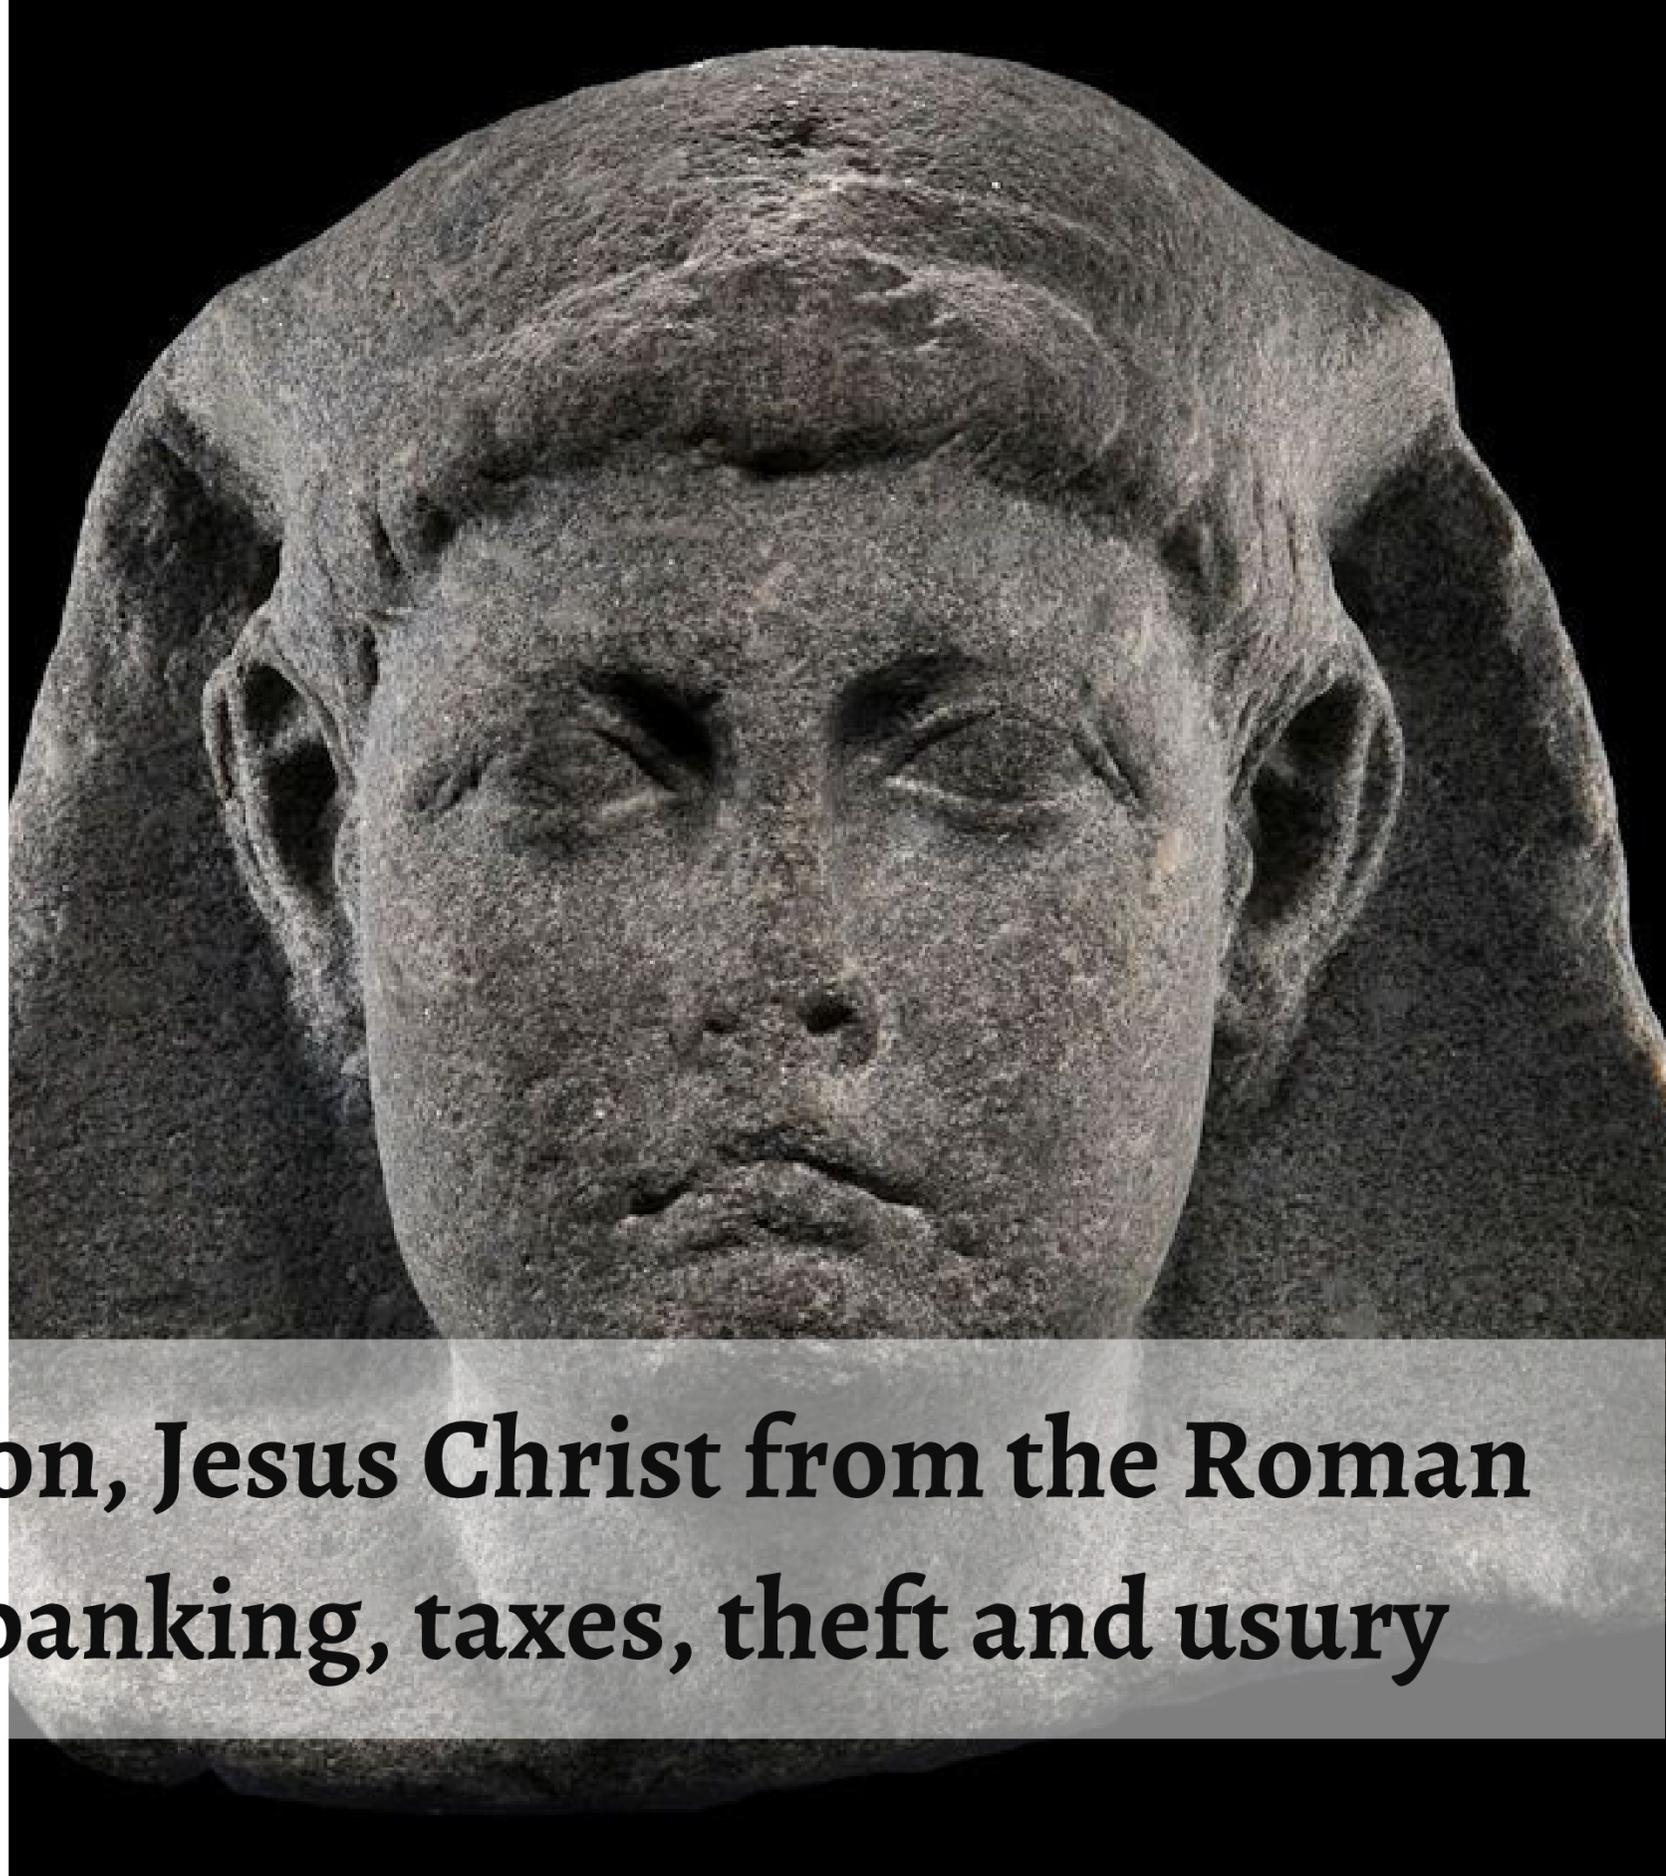

In addition to Billy's writings FIGU also disseminates the word for word transcripts of Billy's conversations with various human being extra terrestrials from the Plejaren Federation. From January 1975, when Billy's mission and contacts became 'official', to the present day over 670 personal or telepathic conversations have taken place, been recorded word for word and the contents published in 'Copyrighted' books. These books, known as the 'Contact Notes or Contact Reports' are available for anyone to buy in the German language, although many partial and full translations exist in many languages.

Introduction to the Future Map of the World

How is it that a person can know the future? All of us have experienced precognitive events in our lives — a phone rings and we know who's calling, and sometimes why they are calling, before we answer it. Dreams often give us a glimpse of our future. Stories of people who have seen winning lottery numbers in their dreams appear in the news. We have all heard reports of travelers who, upon arriving for a flight, change their plans and whose to get on the plane because of a feeling or premonition. Another phenomenon is the ability that some people have to detect earthquakes before they happen. These earthquake sensitives, or Earth change sensitives, who number in the thousands, demonstrate an ability to detect changes in the Earth through their bodies, they do this hours, days, and sometimes weeks in advance of occurrences.

On the academic side, subjects such as ESP have been studied by such esteemed universities as Duke, Stanford, and others. The data suggest that community simply has no knowledge about how the mind works; only that it exists and is probably different from the brain.

With the acceleration of Earth changes — earthquakes, hurricanes and volcanic activity — perhaps no other area of phenomena has created as much interest in Earth changes predictions.

Since 1979, I have had ongoing visions concerning the Earth, sometimes as many as ten or more in a day, lasting from a few seconds to minutes. Then in 1982 I began to sketch a world map based on these visions, and I updated it through the years as new information was presented to me. This map is the culmination of a major, ongoing effort to consolidate all the Earth change information I have received. As a result, the *Future Map of the World* is the most comprehensive and up-to-date representation of Earth change visions and information that has been presented to me.

The purpose of the *Future Map of the World* is to present a visual representation of probable geophysical events that may occur in the future. I feel that by sharing this information, an early warning system may be established that takes into account both the past and the future.

Mr. Scallion is the author of the best selling book *Signs from the Cosmos* and over 25 audio learning programs. He is an editor of *Intuitive Earth*. The

GORDON MICHAEL SCALLION is an internationally known and respected futurist, teacher of consciousness studies and metaphysics, and spiritual visionary, now considered by many to be one of the most accurate intuitives of our time. Educated in electronics, Mr. Scallion experienced a health crisis and subsequent spiritual awakening in 1979 that left him with the gift of prophecy and an ability to view the ancient past and probable future.

**Risk of nuclear explosion in the United States for the
"Fall of Babylon" (Revelation 18)**

"The Fall of Babylon" (Revelation 18)

" 'Fallen! Fallen is Babylon the Great!' She has become a dwelling for demons and a haunt for every impure spirit, a haunt for every unclean bird, a haunt for every unclean and detestable animal. For all the nations have drunk the maddening wine of her adulteries. The kings of the earth committed adultery with her, and the merchants of the earth grew rich from her excessive luxuries."

"When the kings of the earth who committed adultery with her and shared her luxury see the smoke of her burning, they will weep and mourn over her. Terrified at her torment, they will stand far off and cry:

'Woe! Woe to you, great city, you mighty city of Babylon! In ONE HOUR your doom has come!' "

"The Fall of Babylon" (Revelation 18)

" The merchants of the earth will weep and mourn over her because no one buys their cargoes anymore-cargoes of gold, silver, precious stones and pearls; fine linen, purple, silk and scarlet cloth; every sort of citron wood, and articles of every kind made of ivory, costly wood, bronze, iron and marble; cargoes of cinnamon and spice, of incense, myrrh and frankincense, of wine and olive oil, of fine flour and wheat; cattle and sheep; horses and carriages; and human beings sold as slaves."

"They will say, 'The fruit you longed for is gone from you. All your luxury and splendor have vanished, never to be recovered.' The merchants who sold these things and gained their wealth from her will stand far off, terrified at her torment. They will weep and mourn and cry out:

'Woe! Woe to you, great city, dressed in fine linen, purple and scarlet, and glittering with gold, precious stones and pearls! In ONE HOUR such great wealth has been brought to ruin!' "

"The New Heaven and the New Earth" (Revelation 21)

"Then I saw "a new heaven and a new earth," for the first heaven and the first earth had passed away, and there was no longer any sea. I saw the Holy City, the new Jerusalem, coming down out of heaven from God, prepared as a bride beautifully dressed for her husband. And I heard a loud voice from the throne saying, "Look! God's dwelling place is now among the people, and he will dwell with them. They will be his people, and God himself will be with them and be their God."

The New Jerusalem

"One of the seven angels who had the seven bowls full of the seven last plagues came and said to me, "Come, I will show you the bride, the wife of the Lamb." And he carried me away in the Spirit to a MOUNTAIN GREAT AND HIGH, and showed me the Holy City, Jerusalem, coming down out of heaven from God. It shone with the glory of God, and its brilliance was like that of a very precious jewel, like a jasper, clear as crystal."
